## ROBUSTNESS

"Today's investment, tomorrow's saving"

Generously sized and properly ribbed structural parts, strong milling heads, machines in perfect geometry... have always been the distinctive features of **NICOLÁS CORREA** since its foundation in 1947.

We are convinced Robustness is a good bet for our customers, a sensible investment that will result in the following benefits/values:

### RELIABILITY

In **NICOLÁS CORREA**, we extend the concept of robustness to the whole production process of the machine, always choosing technical solutions of the highest quality. For this reason, we offer as standard 5 year warranty on our milling machines.

### PRECISION

The milling machine is stable and maintains geometry values longer.

### DURABILITY

Our machines are designed and assembled to last for decades.  
Tireless workers that maintain their chip removal capacity in good condition for years.

### MILLING HEADS

Unique robust milling head technology with superb repeatability, flexible to perform roughing and finishing operations.

## What makes the difference in the NORMA-L?

The **NORMA-L** represents a new concept in mobile column machine with lateral ram. Very sturdy thanks to the L-shaped ram guide and triple X-axis guide. Precision thanks to the mechanical ram droop correction system. A flexible machine suitable for machining and finishing operations

### L-shaped guide system:

- Greater rigidity and stability during machining.
- Greater geometrical precision.
- Less ram droop effect.

6 vertical movement sliders ensuring good machine behaviour

L GUIDE-WAY SYSTEM CONFIGURATION

MECHANICAL COMPENSATION SYSTEM

Traction bars to eliminate the angular error of the ram droop effect

3 moving X-axis guides to ensure stability and good geometrical precision

ECO-DESIGN

Stand-by function and Auto Switch off function, saving 20% of the total energy machine consumption

HIGH DYNAMIC CAPACITY

25 m/min in X, Y and Z axes, thanks to its V-Shaped linear guide-ways in all axes

OVERSIZED STRUCTURAL ELEMENTS

The largest cross-sections on the market

HIGH GEOMETRICAL PRECISION

High machining capacity + geometrical stability over time

## Technical Features

NORMA·L		NORMA·L 45	NORMA·L 60	NORMA·L 80
<b>TABLE</b>				
Surface	mm	5.500 x 1.200	7.000 x 1.200	9.000 x 1.200
Maximum load on the table	Tn/m <sup>2</sup>	6		
<b>TRAVERSES</b>				
Longitudinal	X mm	4.500 / 6.000 / 8.000		
Cross	Y mm	1.250		
Vertical	Z mm	1.500		
<b>FEEDS</b>				
Maximum	X m/min	25		
	Y m/min	25		
	Z m/min	25		
<b>SPINDLE SPECIFICATIONS</b>				
Spindle nose		ISO-50		
Programmable speed	rpm	3.000 / 6.000		
Maximum power	kW	24 - 33		
Maximum torque	Nm	840 - 990		

## Standard Equipment

Automatic Universal Head  
UDG (2,5° - 2,5°)

Numerical control  
Heidenhain i530 HSCI

Portable handwheel

Air-conditioned electrical cabinet

Linear guides in the  
X, Y and Z axes

Lamp in the working area

Gearbox

Hydraulic group

Linear scales in all axes

External Coolant with  
adjustable nozzles in the head

Internal and  
external air flow

Perimeter fence

Direct Tele-service

## External Dimensions

# Unique Indexing Milling Head Technology

Patented worldwide

## FLEXIBILITY

Rotation/indexation every **0,02°** thanks to the double Hirth coupling patented worldwide

**6.000 rpm** with no limitations

Adjustable coolant through spindle  
**17 - 70 bar**

100% ROBUST

## RELIABILITY

Design and fabrication entirely by NCSA. The whole assembly process is monitored by NCSA

Head assembly in a **cleanroom** with constant temperature 22°C

Milling head run in the **test bench** for **60 hours** performing body & spindle rotations

## ROBUSTNESS

**4+2 Bearings** in the main spindle

Tool clamping force = **2.500 kg**

Hirth coupling's locking force = **22.000 kg**

The milling head's design allows **52 kW - 1.375 Nm** in S1

Milling head body made of **casted steel GGG-50**

100% RELIABLE

## PRECISION

**Maximum coupling repeatability error + - 3"**

The bearing's cages of the main spindle & the external spacers of the secondary axes' bearings, **are cooled with water**

## Milling Head

24 kW | 840 Nm | 6.000 rpm  
33 kW | 990 Nm | 6.000 rpm

Universal Auto-Indexing Differential Head

**UAD** 0.02° x 0.02°

24 kW | 840 Nm | 4.000 rpm  
33 kW | 990 Nm | 4.000 rpm

Universal Manual Head

**U.22** 2.5° x 2.5°

24 kW | 840 Nm | 6.000 rpm  
33 kW | 990 Nm | 6.000 rpm

Orthogonal Auto-Indexing Differential Head

**OAD** 0.02° x 0.02°

24 kW | 840 Nm | 3.000 rpm  
33 kW | 990 Nm | 3.000 rpm

Universal Automatic Head

**UDG** 2.5° x 2.5°

## Applications

EQUIPMENT MACHINING

GENERAL MECHANICAL

## Optional Equipment

Other heads

Probes of measurement, tools and parts

Automatic charger for 30, 40 and 60 tools

Pick up station for 8 tools

Air or oil cleaning gun with motor pump

Centrifugal filter in cutting fluid tank

Rotary tables

Integrated rotary tables

Chip conveyors

Integral guarding

Coolant through spindle to high and medium pressure

Operator cabinet

Pendular working system

## Applications

CRANE ARM MACHINING

GENERAL MECHANICAL

**NICOLÁS CORREA S.A.**

Founded in 1947 and dedicated to the design and fabrication of medium and large size milling machines, is the headquarters of the Group **NICOLÁS CORREA** also formed by 4 other industrial affiliates:

**GNC HYPATIA**

Design and fabrication of **CORREA** milling machines of small size, as well as accessories for the tool machine industry such as ATCs and milling heads.

**GNC KUNMING**

Fabrication and distribution of milling machines for the local chinese market.

**GNC ELECTRÓNICA**

Design and fabrication of electrical assemblies.

**GNC CALDERERÍA**

Welded structures, sheet parts, and machine guarding systems.

Some critical components are supplied inside the group to assure quality and fulfill the flexibility requirements of our customers.

In 2006 **NICOLÁS CORREA** and **INDUSTRIAS ANAYAK** merged, what gave us the chance to offer one of the widest milling machine ranges on the market including: bed type (Also T-Configuration), Travelling column (Also T-Configuration), Portal milling machines. The design and manufacture are entirely made in Europe.

It quotes in the Madrid Stock Exchange since 1989.

In order to guarantee service and personal assistance to our customers, we have a wide sales and service network all over the world, being present through subsidiaries or agents in most of the countries.
